Kirby is a true plumbing professional. My phone calls are always answered quickly. He is on time, takes care of the problem in a efficient manner and his prices are realistic. I have never had a concern after Encore Plumbing comes, I know things have been fixed.

I have worked with lots of plumbers in this area on house and backyard remodels and I will use Kirby and Encore plumbing exclusively for now on. Recently I had a couple plumbing issues, one being a leak on my side of the city water meter. In the midst of their busy schedule Kirby took the time to come get me fixed up as soon as he had a moment. He took the time explain this issue, show me what he did for the repair, and leave me his contact info incase something else occurred.

Needed a new sink and faucet I recently purchased installed.

Shawn was our man! He worked quietly and quickly. The process was easily explained and he was out within two hours.

The cost was slightly higher than quoted from 2 other companies, but for the little extra you can be sure you're getting the job done by someone you can trust.

Thanks to Kirby and Shawn, you guys rock.

Great communication from company to client. Helpful, friendly service from entire team. Crew showed up as scheduled and completed everything quickly and efficiently. Very respectful to both myself and my house. Nice to speak with the actual person not a call center, so know exactly who is coming to the house. Highly recommended. Will use again.

I have used Encore Plumbing for over 10 years. I have referred them to my friends over the years and I will continue to do so. Great work and great and trusted people. I do not use any other company.
